

FIG. 1

This technical drawing is a cross-sectional view of a complex mechanical assembly, possibly a valve or a specialized actuator. The assembly is characterized by a central vertical shaft (20) and a horizontal actuator arm (2A). The main body (1) houses internal components, including a central shaft (2) and various seals and guides (3, 12, 13, 21, 22, 30). The actuator arm (2A) is connected to a vertical rod (16) via a joint (15). The assembly is secured with various bolts (e.g., 4, 7, 12, 19, 34) and seals (e.g., 3, 13, 21, 22, 30). The diagram is labeled with numerous numerical identifiers (1 through 62) pointing to specific parts.
